**The Kansas Radon Program
ISSUES-PROGRAMS**

A. Narrative describing the issue:

The Kansas Radon Program strives to provide Kansans with radon facts, testing options, and resources. Their purpose is to educate the public about the effects of radon and how to test homes, businesses, schools, and water for radon. They provide workshops and webinars on radon education. Radon is a naturally occurring radioactive gas that can cause lung cancer. You can't see or smell radon. Testing is the only way to know your level of exposure. Kansas Radon Program is a 501c3 organization.

B. Narrative describing the program:

SAFETY: Their PEP spots make the public aware that radon is the leading cause of lung cancer death for non-smokers in the United States. In Kansas, 1 in 4 homes will test at or above the EPA action level. The Surgeon General recommends all homes test for radon. Where to find professionals to test your home for radon.
